

## **E-RESOURCES ACCESS CONFIGURATION GUIDE**

### **INSTITUTO CERVANTES LIBRARY NETWORK**

**REQUIREMENTS FOR THE IMPLEMENTATION AND OPERATION OF ELECTRONIC RESOURCES**

**1. Browser configuration** p. 3

**2. Screen configuration** p. 4

**3. Control ActiveX configuration** p. 5

**4. Cookies configuration** p. 6

## 1. Browser configuration

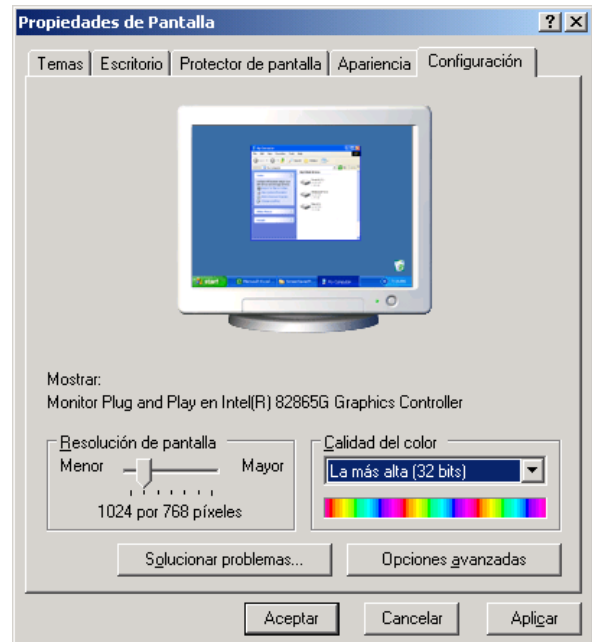

Access to some of our electronic resources requires the use of JAVA. To verify if JAVA is already installed on your computer, or if it requires an update, please visit the following web-site:

<http://www.java.com/>

The screenshot shows the Java website homepage. At the top, there is a red navigation bar with the Java logo on the left, a search box on the right, and links for "Java in Action", "Downloads", and "Help Center" in the center. Below the navigation bar, the main content area features the text "JAVA + YOU, DOWNLOAD TODAY!" in large, bold letters. To the right of this text is a photograph of a man and a woman sitting together, looking at a laptop. Below the text is a red button that says "Free Java Download". Underneath the button are three links: "» What is Java2", "» Do I have Java2", and "» Need Help?". Below this is a section titled "Experience Java in Action" with a horizontal scroll bar. It contains six small thumbnail images with captions: "Java + Alice", "Java + Livescribe", "Java + Neil Young", "Java + Blu-ray Disc", "Java + Mifos", and "Java + Amazon Kindle". At the bottom left, there are several small links: "Select Language", "About Java", "Developers", "Privacy", "Terms of Use", "Trademarks", and "Disclaimer". The Oracle logo is visible in the bottom right corner.

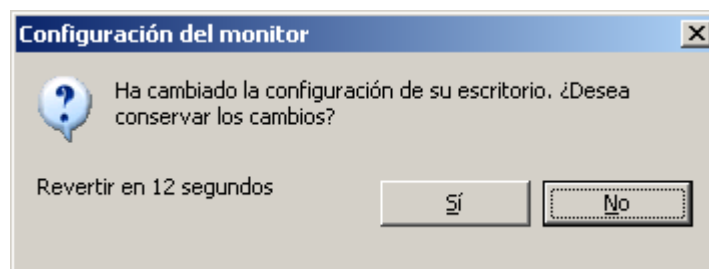

## 2. Screen configuration

Placing the cursor on the desktop, right click, then select **“Properties”**. Once the “Screen properties” window appears, select the **“Configuration”** tab.

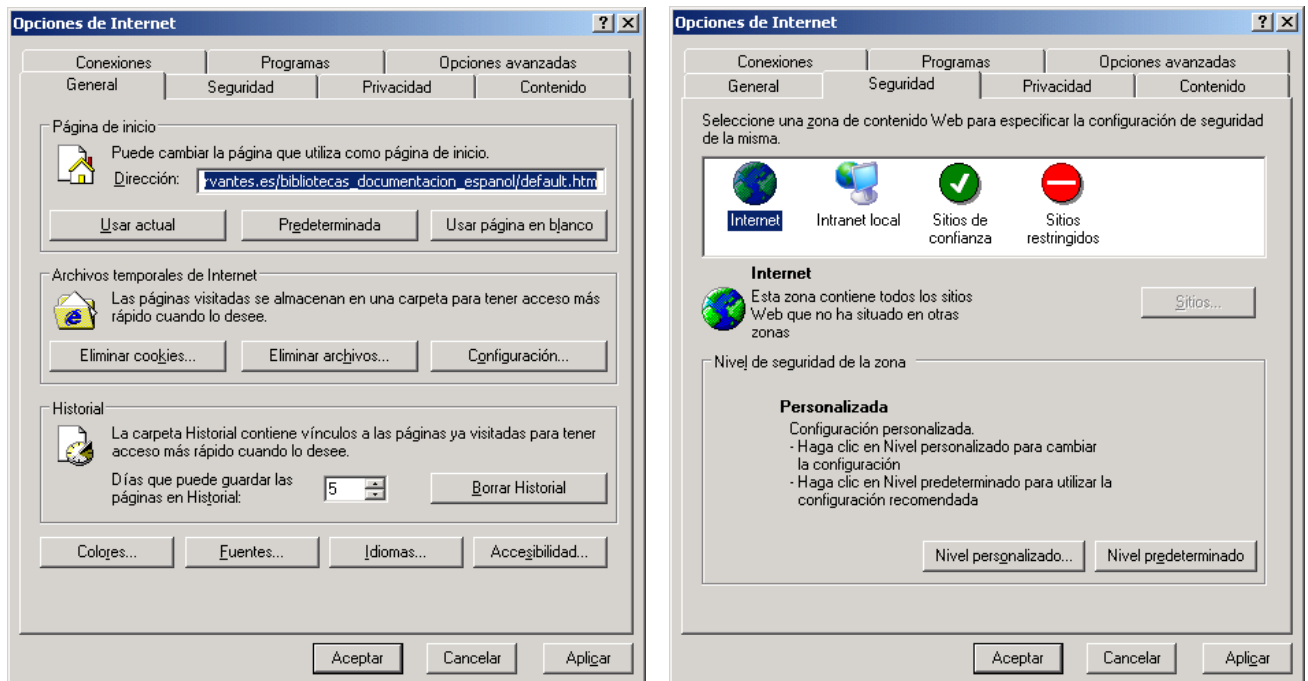

From the “Screen resolution” section, choose “1024 x 768 pixel resolution” from along the sliding scale.

Click “Accept”. If the question “Do you wish to change the configuration of the PC” appears, select **“Yes”**.

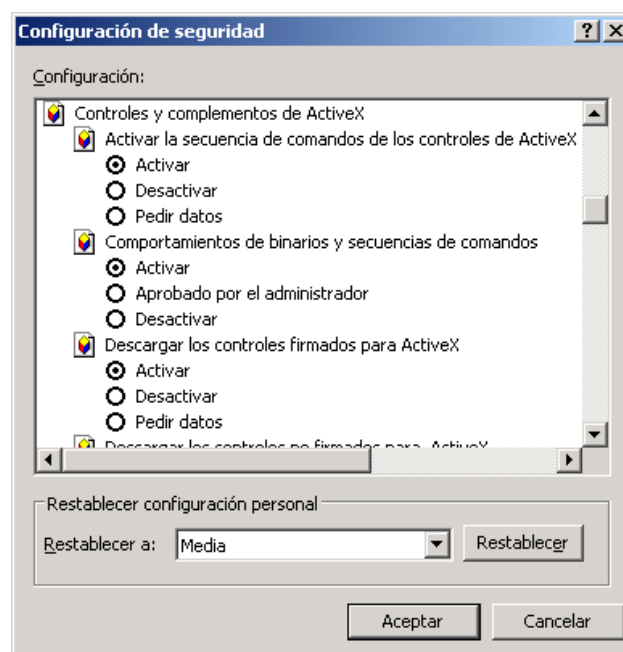

### 3. Control ActiveX configuration

From the Internet Explorer browser, go to **"Tools"** from the horizontal menu bar at the top of the screen. Select **"Internet Options"** from the drop-down menu, then click **"Security"**.

Select **"Personalized level"**. Scroll down to **"ActiveX controls and complements"**. Select **"Activate"**, then **"Accept"**.

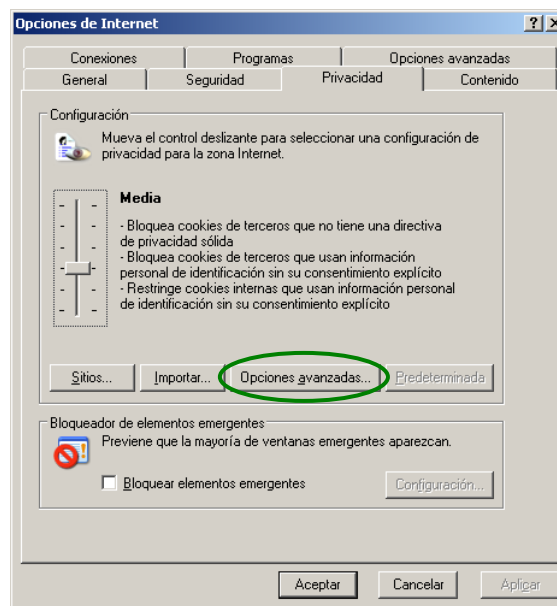

#### 4. Cookies configuration

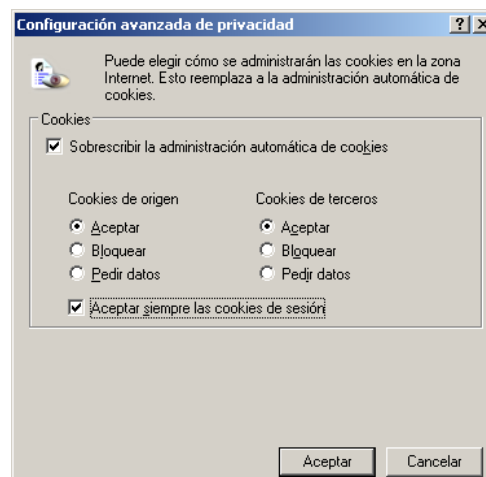

In order for ONELOG to operate smoothly, it is necessary for the browser to accept cookies:

Open Internet Explorer and select **"Tools"**, then **"Internet Options"**.

Select the **"Privacy"** tab, then select **"Advanced Options"**.

Select **"Overwrite the automatic administration of cookies"** and **"Accept"** the following options: **Origin cookies** and **Third party cookies**. Finally, select the option **"Accept session cookies"**, and **"Accept"**.

If you have any queries on any of the above processes, please do not hesitate to contact us at the following address: [bibdoc@cervantes.es](mailto:bibdoc@cervantes.es).
